

DREW T. WAGNER

drew_wagner@utexas.edu | 818.519.7051 | D-wags.github.io | github.com/D-wags

EDUCATION

- **Doctor of Philosophy, Biochemistry • Fall 2017**
University of Texas at Austin
Advisor: Adrian Keatinge-Clay
- **Elements of Computing Program: Data Science Track • Fall 2017**
University of Texas at Austin
- **Bachelor of Science, Biochemistry and Molecular Biology with Honors • Spring 2010**
University of California Santa Cruz

EXPERIENCE

- **Graduate Student • Keatinge-Clay Lab • August 2012 - Present**
Department of Molecular Biosciences, University of Texas at Austin
 - Active researcher on several completed and ongoing projects focusing on the structural and mechanistic characterization of polyketide synthase domains.
 - Developed enzyme assays and mutagenesis screens to characterize substrate tolerance and mechanism of action of biosynthetic enzymes.
 - Employed recombinant DNA technology and X-ray crystallography to design and construct custom fusion proteins for synthetic biology applications.
- **Research Technician • June 2011 - August 2012**
Molecular Sciences Institute – Berkeley, CA
 - Constructed and maintained recombinant *S. cerevisiae* strain collection.
 - Performed metabolic engineering experiments on *S. cerevisiae* strains using flow cytometry and fluorescent microscopy leading to development of yeast strains for production of commercially relevant chemicals.
- **Research Assistant • Ottemann Lab • June 2010 – June 2011**
Department of Microbiology and Environmental Toxicology – University of California Santa Cruz
 - Assisted with design and execution of *in vitro* experiments on chemotaxis proteins of the bacterial pathogen *H. pylori*.

TEACHING

- **Spring 2017** – BCH369 – Fundamentals of Biochemistry
- **Fall 2016, Spring 2015, Fall 2014, Fall 2013** – BCH339F – Foundations of Biochemistry
- **Spring 2016** – BIO361 – Human Infectious Diseases
- **Fall 2015** – BIO326M – Intro to Medical Microbiology and Immunology
- **Spring 2014** – BCH369L – Biochemistry Laboratory
- **Spring 2011 (UCSC)** – BIOC100C – Integrative Biochemistry of Metabolic Pathways

COMPUTATIONAL SKILLS

- **Programming** • Python, R, Bash, git/github
- **Database** • MySQL, MongoDB
- **Data Visualization** • PyMol, R studio, ggplot, Tableau
- **Web** • HTML, CSS, Javascript, Node.js, jQuery
